9th Battles Across Elbe; Reds Open Drive-Nazis

The Battle of Germany Grows in Fury

As the battle mounted on the Elbe River line west of Berlin, the Germans reported a large-scale Russian offensive on a 150-mile front. American forces neared Czechoslovakia. In Holland, enemy resistance offensive on a 150-mile front. American forces neared Czechoslovakia. In Holland, enem was collapsing as the Canadians spread out. The Ruhr pocket was fast being liquidated.

War Strategy Unchanged—Truman

Congress Told U.S. Must Help **Protect Peace**

WASHINGTON, April 16 (ANS).

—President Harry S. Truman promised today that the grand strategy of the war would remain "un-changed and unhampered" by his ession to the Presidency.

Making his first address as President to Congress, the new President told a joint session that the United States, along with its Allies, must shoulder the "grave responsibility" of making future peace secure

To accomplish this, Truman said, the United States must join in pun-ishing those guilty for bringing on

war.
"Lasting peace can never be secured if we permit our dangerous opponents to plot future wars with impunity at any mountain retreat, however remote," the President said in an apparent allusion to reports that Hitler may seek refuge in the

5th Army Joins 8th in All-Out Italy Offensive

ROME, April 16 (Reuter).—The Italian battlefront blazed from to coast today as the U.S. Fifth Army joined the Eighth Army in a full-scale offensive to destroy the enemy in North Italy.

Fifth Army troops kicked off in the hills southwest of Bologna at 0315 today after aircraft of the 15th and 12th U.S. AFs had pulver-ized German positions guarding Bologna. The air effort exceeded previous Mediterranean records.

By late afternoon, the Americans had taken two peaks about four miles northwest of German-held Vergato and 18 miles southwest of Bologna, but the over-all advance was only 1,000 yards. Action flared on all fronts yesterday, with Allied reports that the Germans have pulled armored outfits from the Eastern Front in an attempt to stem the Allied drive from the West on Berlin, and German reports that Russian troops have launched a large-scale push on Berlin along a 150-mile

The Italian front exploded in a full-scale offensive by the U.S. Fifth and the British Eighth Armies to destroy an estimated 26 German divisions in northern Italy. Meanwhile, the French drive to clear the German pocket on the Gironde estuary and thereby to reopen the port of Bordeaux continued favorably.

An Editorial

Three Years Old Today

THE Stars and Stripes is three years old today. It was on April 17, 1942, that the first edition of The Stars and Stripes weekly hit the streets in London. From that beginning, it has followed the troops into Africa, Italy and the mainland and is now being published in Germany daily.

Twenty-four separate editions have been published during the period. Seven are now being printed in Europe - in London, Rome, Nice, Liege, Naples and Germany. With a combined circulation of more than a million and with its newsgathering agencies and personnel distributed from the front lines to San Francisco, The Stars and Stripes may well claim to be in the "big time."

Editor Calls Truman 'No Man to Rock Boat'

By Richard Wilbur

The Stars and Stripes U.S. Bureau

NEW YORK, April 16.—A tremendous burden of duties—involved in the toughest job in the world-bore down today on President Harry S. Truman. Millions of citizens throughout the country wondered, guessed and argued about how the new President

try wondered, guessed and argued about how the new President would act. Ordinary folk, everywhere, felt united and solid behind the new leader, but were puzzled as to what to expect from this President and what kind of man he really is.

One estimate came from the Kansas City Star, highly influential in the Midwest, whence President Truman himself came. Managing Editor Roy Roberts, writing from Washington, said the new leader was "no man to rock the boat, but he has the innate, instinctive conservatism of the Missouri-bred countryman." The Star said there would be a significant shift from personal government back to government by consultation. The newspaper declared that, primarily, the biggest hing is that the power seat shifts from the Hudson River to the Missouri.

The Star also predicted "a return of the era of goodwill between the lawmakers and the executive side of government." Declaring that Truman hasn't any really deep-seated enemy in Washington, the Star characterizes him as "the average man who became President," as contrasted with Mr. Roosevelt, "essentially the brilliant patrician." The Star asserted that Truman's understanding of the average man was probably his greatest asset.

"It is entirely possible that this feel of the average man may make him a mighty leader for the nation in the years just ahead," the Star continued... If with his Midwest agrarian upbringing, he develops a weakness, it will be in not always understanding "the newly-aroused mass consciousness of industrial labor," although he has always had labor's support, the Star said.

The Star felt that the country has reacted in a splendid fashion in the spirit of giving President Truman every chance, and even the hostile Hearst-McCormick-Patterson press has pledged support and

Mrs. Leonie Duchene saw the robin enmeshed in a string around its neck and leg, and called the cops. The cops climbed the tree and freed the bird, but it had broken its leg. Taken to the animal shelter, the bird was killed there.

MAJ. GEN. HANS VON SCHUBERT, captured in France last fall, was buried with full military honors in the Como, Minn., prisoner of war camp cemetery. The funeral procession passed between prisoners, each of whom gave the Nazi salute, the Associated Press reported. The St. Paul Dispatch editorially declared that this procedure was in accordance with international convention but added: "Conventional or not, it is about time that this business of paying high honors to leaders of men bent on organized murder, conquest, rape, terrorism, be ended. It makes a mockery of everything civilization honors. After all, just what honors do Von Schubert and his kind rate?"

Jet-Plane Plant Found 1,000Ft. Deep in Earth

By Ernest Leiser Stars and Stripes Staff Writer

WESTEREGELN SALT MINE, April 16.—A complete jet-plane plant, turning out about 200 planes a month has been discovered nearly a thousand feet below the ground here.

The plant, operating on the seventh and lowest level of a salt mine, was discovered by two soldiers from the 78th Armd. FA Bn. The battalion had occupied the refinery above the plant, on a lonely road near Egeln, a few miles west of the Elbe.

The two were Pfc James Prenger, of Jefferson City, Mo., and W/O Joseph Crocker, of Cleveland. The way Prenger tells it "You know how Joes are." Prenger said. "We just snooped around the refinery and found this mine shaft."

American Citizen Found

Cornelis said he had been taken from Belgium to Germany after the Nazi occupation of 1940 and had been put to work in the plant. He received the same wages as the German laborers.

Today, Cornelis took curious soldiers, reporters and photographers

In one great room—300 feet long, 60 feet wide, and with a ceiling 35 feet high—there were fine machine tools and in one corner an office section. At the entrance were cards and a time clock.

Other smaller rooms branched from the corridor until you reached the assembly room, where the plane bodies were stored. There the German foreman of the plant briefly explained the production process. WASHINGTON, April 16 (ANS).

—A Soviet policy of using German manpower to rebuild its shattered cities has already been put into effect in the Balkans, The Associated Press said today.

The AP said that according to diplomatic information reaching Washington, about 70,000 men and women out of 500,000 Germans in Rumania have been removed to women out of 500,000 Germans in Rumania have been removed to the Soviet Union. Originally, Russia wanted to take virtually the entire half-million, but American and British intervention against such wholesale transfer caused Russia to reconsider, the AP said.

It also estimated that 100,000 Germans have been removed from Jugoslavia and presumably sent into Russia, but Marshal Tito handled the operation himself and refrained from reporting on it to refrained from reporting on it to his Western Allies, the AP said.

WITH THIRD DIV., Germany, April 16.-The old soldiers of this division, some of whom fought in nine campaigns against the roughest outfits in the German Army, now find themselves opposed by only the tatters of that army.

Their principal resistance comes from wandering bands of newly-inducted school kids, Wehrmacht troops from scattered units, cadres from glider schools and misfits. Die hard Nazi officers and noncoms patch them into battle groups to fight in the main roads through

There is usually no line linking these groups and Lt. Robert Hawkins, of Brooklyn, commander of the 15th Int's Co. I. likes that. "We find a trail through the woods and while they concentrate on the roads we get behind them and start knocking them off before they even know we're in town."

With Gun at Back

Many of these German strays stand up to the guns of the Americans only because guns of their fanatic leaders are at their backs. The doughboys of I Co. saw one group of German soldiers trying to surrender, only to be forced back by their noncom. Nazi Command Split for Day of Allied Linkup

By Richard Lewis Stars and Stripes Staff Writer

Stars and Stripes Staff Writer

The German command in defense zones west of Berlin has been split, in preparation for the link-up of Allies and Russians which will cut Germany in half and dissolve the Eastern and Western Fronts, it was disclosed at SHAEF yesterday.

The Germans are preparing to make their last stands in the north along a line from Bremen to Hamburg which would defend the approaches to Denmark and in the south in the redoubt area of the Bavarian Hills. Convoys of troops and supplies heading toward both defensive positions have been reported by air reconaissance.

Command of the northern front probably will be under Field Marshal Ernst Busch, who has been brought out of retirement for the first time since last August when he was relieved of the command of the German Army Group Center.

Alibi of the week. Asked how he got his black eye, a corporal replied, "I stepped up to a crowded bar and said, 'just a little Stout,' just then a buxom dame walked by, overheard me and slugged me."

Seems there were two GI cooks in a bistro. One was carefully nursing a calvados while the other was swilling champagne, buying drinks for the house, etc. Finally

one asked, "Pardon me, Bud, but where do you get all the dough?" "I'M really living, Mac," came the answer, "I just got my frying pay."

Who said that? Sometimes you can't tell how a girl will turn out until her folks turn in.

Overheard in the blackout. "If they call sailors 'Gobs'—I guess the Waves are 'Gabs.' "

A Joe who has been in England too long remarked, "fat in a woman is like sugar in tea. It soon settles to the bottom."

Truman, Molotov, Eden **May Meet in Washington**

WASHINGTON, April 16 (ANS-.-Vyacheslav Molotov, Soviet Commissar of Foreign Affairs, is expected to visit Washington and confer with President Truman and probably Foreign Secretary Anthony Eden of Great Britain, en route to the San Francisco conference, the Associated Press said today.

Truman Talks

(Continued from Page 1) must carry on. Our devoted leader never looked backward. He looked

forward and moved forward. That

is what he would want us to do That is what America will do."
Mr. Truman went to the Capitol after two early morning conferences

on international affairs. The first was with Secretary of State Edward R. Stettinius Jr. The second was with Stettinius, British Foreign Secretary Anthony Eden and Viscount Halifax, British Ambassador to the United States

Eden, on leaving the White House after a 20-minute talk with the President, told newsmen he

had brought the new President a message from Prime Minister Churchill, Reuter reported. "I told the President how grateful we are for the close and intimate relations that exist between us in all our affairs," Eden said,

Long before the President arrived

at the Capitol, police and Secret Service men placed a guard around the building. Only holders of spe-

Speaking from the rostrum where President Roosevelt, on March 1, described the accomplishments of the Yalta conference, Mr. Truman said American policy remains "unconditional surrender."

["So there can be no possible misunderstanding, both Germany and Japan can be certain beyond any doubt that Americans will continue to fight for freedom until no vestige of resistance remains," Reuter quoted the President as exving!

of the peace."

Recalling his statement Thursday that the San Francisco conference would proceed on schedule,
Mr. Truman said the nation must

face the problems of peace "with the same courage that we have faced and mastered problems of

war."
It is not enough, Mr. Truman said, merely to yearn for peace. "We must work and, if necessary, fight for it," he declared.
The President called the task of creating a sound international organization complicated and difficult, but he said "machinery for a just settlement of international differences must be found.

To Congress

Diplomatic observers here viewed the expected visit as a second gesture by the Russian government toward unifying the Big Three ranks following the death of Frank-lin D. Roosevelt. The first step was Russia's decision to send Mo-lotov as head of its delegation

San Francisco in accordance with President Truman's request.

[Moscow radio, according to Reuter, said yesterday: "The Soviet government has received an invitation from President Truman and Secretary of State State. an invitation from President Truman and Secretary of State Stettinius for Comrade Molotov to visit Washington and take part in . . . the conference. Notwithstanding difficulties arising from the absence of Comrade Molotov from Moscow in connection with the forthcoming session of the Supreme Soviet of the USSR, the Soviet government, in view of the circumstances, has accepted the invitation.

invitation.]

There is a possibility that when the Bristish, Russian and American foreign ministers meet, they may work out tentative plans for another Big Three meeting to tackle such problems as the Polish question, the German occupational plan, and the situation in the Balkans.

situation in the Balkans.

The American delegation to the San Francisco conference is expected to work out its policy during the week. It is expected, among other things, to give strong support to proposals by Sen. Arthur H. Vandenberg (R.-Mich), one of the delegates, for writing into the United Nations' charter a forthright statement of the principle of justice as a basis for the proposed world security organization.

Battle Rages in Royan To Open Bordeaux Port

Tanks of Gen. Leclerc's French Second Armd. Div. battled within Royan on the Gironde estuary, while Allied efforts to clear the German pocket and reopen the great port of Bordeaux continued to progress satisfactorily today.

Leclerc's armor broke through stubborn German defenses south of the town and was slowed by heavy minefields.

Short War, Wasn't It?

THE following anecdote is related by the Associated Press as indicative of the kind of troops Hitler is throwing against the Allies these days:

A general striding down the streets of Kassel spotted two youths in civvies and demanded: "Why aren't you in uniform?" and packed them off to a supply sergeant who uniformed them and sent them forward to a captain. The captain gave them guns and ordered them to join a platoon. platoon.

Platoon leaders greeted them and said: "You arrived just in time to cover our retreat. Get in that shellhole and delay the

Hitler Appeals to His Troops To Keep Russians From Berlin

LONDON, April 16 (AP).—Adolf Hitler, in an order of the day, appealed to German troops in the east today to destroy the Russians before they reached Berlin. He said, Berlin would survive the latest Soviet offensive.

The order declared: "We have been expecting this offensive

Hitler exhorted German troops to overwhelm Russians in a blood bath, commanded them to arrest and if necessary to destroy anyone who orders them to retreat—unless he is well known to the troops—"whatever his rank."

Hitler concluded with the words "At a moment when fate has eliminated the greatest war criminal of all times the tide will turn."

Hitler warned the soldiers to watch "particularly the few treacherous officers and soldiers who, in order to secure their miserable lives, will fight against us in Russian pay and perhaps even in Russian uniform."
